which required for the maintenance of Trees at no additional cost to the NHSRCL.

- 10.4. Keep the trees well maintained by professional horticulturists.
- 10.5. The scope of work includes the arrangement of deployment of machineries, deployment of experts and the trained officials for proper planning, supervision and execution of works, all running maintenance & repair expenses, fuel, lubricants and any other consumables required from time to time, all taxes (except GST), duties, incidental charges, penalties etc. as imposed by Central/State/Local Government bodies, including salary and other benefits admissible to staff.
- 10.6. The successful tenderer shall finalize the deployment schedule of the Resources such as machines for transplantation of standing trees, manpower, materials, tools etc. in consultation with the Engineer-in-Charge of NHSRCL. The Contractor shall ensure the agreed resource deployment schedule. The successful tenderer should be able to deploy additional resources without any extra cost as per NHSRCL's requirement for executing the transplantation works to meet the Completion schedule.
- 10.7. For efficient utilization of machineries, pre-planning of the tree transplantation including the deployment of machineries should be done by the successful tenderer in consultation with NHSRCL.
- 10.8. The responsibility of removal of all the hurdles and making temporary roads etc. would be with the contractor, for which additional machineries would be required to be deployed by the contractor in addition to the machines deployed for transplantation of trees. Nothing extra shall be paid towards the same.
- 10.9. All resources, including human, machinery and material resources, will be the sole responsibility of the agency.
- 10.10. If the transplantation process requires temporary demolition of an existing road surface, the Contractor shall acquire permission from the related authorities before commencement of work. - videographs of the trees, etc. and handover the same to the NHSRCL after completion of the work.
- 10.12. All governance, monitoring and reporting aspect of this assignment at region/wing level will be controlled by the concerned NHSRCL officials.
 - 10.13. Before starting of work, all the trees planned to be transplanted should be identified by the successful tenderer. The trees, then, should be numbered and the list should be got approved from NHSRCL representative.
 - 10.14. Tree branches should be trimmed before transplanting as per the requirement for the transportation, as per the guidelines for the Tree Transplanting and NHSRCL's instructions.
 - 10.15. Wounds should be smooth without splitting. When trimming branches with a diameter of over 5 centimetres, avoid splitting due to improper trimming. The wounds must be smoothened, with preservatives applied.
 - 10.16. Roots must be trimmed before transplanting as per the site conditions. Temporary supports shall be installed before trimming. Excavation and trimming shall be performed in stages. The root-cutting diameter should be 10 centimetres less than the planned root ball. The roots should be trimmed one after another, in a circular pattern with the trunk as the core. The wounds of the exposed roots must be smoothened.
 - 10.17. When encountering thick roots, cut them with a hand saw instead of digging through, keep the wounds smooth and apply healing agents to prevent infection.
 - 10.18. Wrap the soil ball with biodegradable materials, and then with large mesh wire netting to maintain its stability.
 - 10.19. After being excavated, the tree trunk should be wrapped with protective materials (e.g. sackcloth, canvas). During transportation of the tree to the new destinations, cushions should be placed between the tree and the body of the vehicle, to avoid damaging the branches. Fasten the tree with ropes for safety's sake, regardless of how far it is being transported.
 - 10.20. Be gentle while loading, unloading, and handling, and avoid dragging while transporting. Ensure there are no damage to the soil ball, and no scratching and splitting of the root system and the tree should be kept intact without injuries to its root system, trunk and crown while transporting the trees.
 - 10.21. Keep the trees being transported properly moistened, sheltered and protected from wind, strong sunlight, rain, cold weather and theft.
 - 10.22. While transporting, loading and unloading, follow traffic safety guidelines, with warning signs erected to alert passing vehicles and pedestrians.

- 10.23. After digging the pits at the new location for the transplantation of trees, apply organic or other types of fertilizers to the base of the hole to facilitate root growth, and replace the existing soil with new soil. The backfilled soil should comprise 40% yellow soil, 20% pond silt, 10% organic fertilizers, 10% peat soil, 20% pumice and 0.1% moisturiser. There should not be any rocks or impurities larger than 1 centimetre in diameter in the soil.
- 10.24. The transplantation process including excavation, transporting and planting should be completed within the same day as far as possible.
- 10.25. When encountering adverse weather, apply temporary measures to protect the soil ball and the planting hole, install sheltering facilities and, if necessary, water the tree to prevent injury or withering.
- 10.26. While planting, remove the wrapping materials around the soil ball, gently put the tree into the hole, and keep the trunk upright. Refill the soil surrounding the root ball, water the tree, compact the soil with wooden stick to enhance contact with the root system, & build a "soil wall" around the tree to retain water.
- 10.27. Install supporting structures immediately after planting, to prevent tree leaning. Fasten the tree with ropes as per the necessity.
- 10.28. Water the tree immediately after transplanting, and water again after 2~3 days, and then provide water timely. Keep it well watered to ensure sufficient water at the base of the soil ball. Meanwhile, wrap the main trunk and the first and second main branches with straw ropes or soft moist materials.
- 10.29. In summer, build a shelter to protect the tree, and spray the tree crown and trunk with water to keep them moist. Protect the tree against cold weather in winter by installing a wind screen and applying other winter-proof measures.
- 10.30. Apply foliar fertilizers after transplanting when appropriate.
- 10.31. Constantly keep the soil moist after transplanting. Beware of water logging and drain excess water in time. During the maintenance period, avoid watering at noon when the weather is hot.
- 10.32. Keep the tree free from pests. While refilling the soil, add pesticide if needed, and trim away branches which are withered or infected by diseases.
- 10.33. Any other necessary activities as deemed necessary for the successful transplantation of trees and required for the survival of the same.
- 10.34. The contractor shall hand over the transplanted trees to the client/ any other agencies as instructed by the Client in good health at the end of maintenance period after transplantation.

**23. Deviation/
Special
Condition
quoted by the
tenderers**

- 23.1.** "Tenderers should submit their offer strictly in accordance with the terms and conditions of the tender document. Tenderer should not quote any deviation from the tender document and should not quote any conditions.
- 23.2.** Nevertheless, as an exception, if any unavoidable deviations or conditions are quoted by the tenderers, financial impact of each of such conditions/deviations on their quoted unit rates, in terms of Rupees per unit rate, shall be clearly mentioned by the tenderer in the tender offer.
- 23.3.** If any of the deviation/condition has no financial impact on the quoted rates, in such cases also, the tenderer must clearly mention its financial impact as 'NIL'. This is required for proper financial evaluation of such conditional / deviated offers.
- 23.4.** Conditional offers / offers with deviations, without quantified financial impact of each of the condition / deviation on the quoted rates, shall be considered as "incomplete" and shall be summarily rejected."

**24. Correction of
Arithmetical
Errors**

- 24.1.** Provided that the bid is substantially responsive, the Employer shall correct arithmetical errors on the following basis:
- 24.1.1. if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the Employer there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;
- 24.1.2. if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- 24.1.3. if there is a discrepancy between words and figures, the amount in words shall prevail, unless

the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (24.1.1) and (24.1.2) above.

- 24.2.** Bidders shall be requested to accept correction of arithmetical errors. Failure to accept the correction in accordance with ITB 24.1, shall result in the rejection of the Bid.
- 25. Employer's Right to Accept Any Bid, and to Reject Any or All Bids.**
- 25.1.** NHSRCL reserves the right to cancel the tender at any time or amend/ withdraw any of the terms and conditions contained in the Tender Document, without assigning any reason, thereof.
- 25.2.** NHSRCL reserves the rights to reject any or all of the tenders without assigning any reason thereof, and is not liable to accept the lowest tender or any of the tenders.
- 25.3.** RIGHTS OF NHSRCL TO DEAL WITH TENDERS:- The authority for the acceptance of the Tender will rest with the NHSRCL. It shall not be obligatory on the said authority to accept the lowest tender or any other tender and no tenderers shall demand neither any explanations for the cause of rejection of his/ their tender nor the NHSRCL to assign reasons for declining to consider or reject any particular tender or tenders.
- 26. Notification of Award**
- 26.1.** Prior to the expiration of the period of Bid validity, the Employer shall notify the successful Bidder, in writing, that its Bid has been accepted. The notification letter (hereinafter and in the Conditions of Contract and Contract Forms called the "Letter of Acceptance") shall specify the sum that the Employer will pay the Contractor in consideration of the execution and completion of the Works (hereinafter and in the Conditions of Contract and Contract Forms called "the Accepted Contract Price").
- 26.2.** Until a formal contract is prepared and executed, the Letter of Acceptance along with all the tender conditions and corrigendum shall constitute a binding Contract.
